## Conference Overview

HPCS is a multi-disciplinary conference that covers all disciplines involving High Performance Computing (HPC). Attended by Canadian and international experts and researchers in the natural sciences, engineering, health and social sciences, it is Canada's preeminent HPC forum.

This 23<sup>rd</sup> International Symposium for High Performance Computing Systems and Applications will be hosted by the High Performance Computing Virtual Laboratory (HPCVL) in Kingston, Ontario. The conference will be held from June 14 to 19, 2009, featuring keynote speakers, exhibition booths, a boat cruise amongst the 1000 Islands and a banquet at World Heritage site Fort Henry. All accepted papers will be published by IEEE, and made available on CD format at the conference. Workshops in HPC programming techniques will also be offered.

Please see [www.hpcs2009.org](http://www.hpcs2009.org) for more information.

## Target Audience

Participants in HPCS 2009 include:

- Representatives from Compute Canada and major Canadian resource providers, including: ACEnet, CLUMEQ, RQCHP, HPCVL, SciNet, SHARCNET, and WestGrid.
- Researchers in disciplines ranging from natural sciences, engineering, and health and social sciences
- HPC system administrators, architects, decision makers, and developers
- Post-doctoral fellows and graduate students
- Industry professionals
- Representatives of government agencies
- Vendor community

## Opportunities for Sponsorship

There are many ways you can get involved in HPCS 2009. Each sponsorship level offers customized benefits and rewards. Please read on to choose a sponsor level that fits your organization. Should these packages not meet your conference needs, please contact us for alternate arrangements.

## **Platinum Sponsor (\$10,000)**

### **Highest Recognition Overall**
